COMPACTALITE
PRO INTEGRA

The **Compactalite Pro Integra** range is a revolution in lightweight awnings, giving you the stability of a full awning and also one of the quickest and easiest lightweights to erect. The integra is the only lightweight awning on the market to have a unique steel roof pole system that enables you to erect it as a lightweight in a minimum amount of time and can be adjusted from the inside to give it the stability of a full conventional awning. The integra has heavy duty 300d double ripstop Acrylix material, stability bar system, rear pad poles and Endurance straps for increased stability in challenging weather, making it one of the strongest on the market. It also has the option of an annexe with inner tent that can be zipped in either side of the awning, ideal for visitors or just that little bit of extra storage space (annexe sold separately).

The skylights and large tinted windows have zipped blinds to give the integra a more spacious yet private feel in the living area. It also comes with 2 detachable storage pockets, ideal for keeping all your holiday accessories nice and tidy; together with all the other fantastic features included in our compactalite pro classic range, including adjustable front legs for easier pitching on uneven ground, extra wide doors ideal for pushchairs and mobility scooters, fully vented side doors and 6 corner vents to increase ventilation and reduce condensation but without any unwanted guests coming in! The draught skirt is made of the same material and coordinates the awning.

The Compactlite pro integra range is available in ivory / graphite and 3 width options 250cm, 325cm and 375cm Hex. The 250 and 325 both have depths of 250cm and the 375 Hex has an exceptional 280cm depth and a hex shaped front making it not only one of the biggest in its class but also one of the most stunning. The compactalite pro integra is so versatile you will only ever need one awning to fulfil all your caravanning holiday needs.

NEW
FOR 2013

FULL FIVE PANEL AWNING WITH TINTED WINDOWS & ZIP IN BLINDS

FEATURE GUIDE - FOR MORE INFORMATION A GUIDE TO ALL OUTDOOR REVOLUTION FEATURE ICONS CAN BE FOUND ON THE BACK COVER OF THIS BROCHURE & ON OUR WEBSITE - WWW.OUTDOOR-REVOLUTION.COM

COMPACTALITE
PRO INTEGRA 375

The **Compactalite Pro Integra 375 Hex** is the ultimate in lightweight awnings. The 280cm depth gives the living area the feeling of exceptional space, plenty of room for your table and chairs and the 375cm width is big enough to accommodate most caravan layouts without going over a window. There are 3 skylights and three front panels, the side panels can be folded down veranda style or zipped down and tucked into a storage pocket sewn into the inside of the awning and the centre panel can be rolled up or put out as a canopy (canopy poles optional extra) The hex shaped front and colour way gives this awning a contemporary look that would compliment any caravan and get you noticed on site.

COMPACTALITE
PRO CLASSIC

The **Compactalite Pro Classic** model range is now class leading in all departments, check out the features, quality and excellent value for money ...

The **Compactalite Pro Classic** still has the internal stability bars for extra stability in strong winds, zipped blinds for extra privacy, extra wide doors ideal for pushchairs and mobility scooters, external endurance straps for extra stability in challenging weather. The Pro Classic now has additional benefits, adjustable front legs for easier pitching on uneven ground, fully vented side doors to increase ventilation but without any unwanted guests coming in! 2 additional vents to reduce condensation, double ripstop material throughout makes this awning one of the most substantial in the market today. The draught skirt is also made of the same material to compliment your awning perfectly and extra windows in the side panels gives you a lighter more spacious feel in the living area. Rear pad poles to give a tighter fit to the caravan and a roof tension bar to give extra support in bad weather are available as optional extras if required. The Compactalite Pro Classic comes in two sizes 250cm and 325cm and two colour ways, Blue/graphite and ivory/graphite. The new modern design and exceptional features would compliment any holiday whether its a short break or you main summer holiday.

COMPACTALITE
325 PRO CARBON

A STATE OF THE ART CARBON-LITE FRAMED CARAVAN AWNING PACKED WITH TECHNICAL FEATURES ...

The **Compactalite Pro 325** is the 2012 top selling Pro Carbon model with the same exceptional features as the Compactalite Pro Carbon Ex but without the integral annexe. The contemporary design and colour way will compliment any caravan. The main living area is 325cm by 250cm and with the front pole design you have additional headroom compared to the more traditional lightweight awnings. The exclusive Carbon-lite frame not only makes this awning amongst the easiest to erect, it also makes it the lightest and one of the strongest in the marketplace. The windows have internal zipped blinds for extra privacy. Both side panels have front and rear vents plus mesh in the extra wide door for additional ventilation. The awning has detachable pegging points and the option of veranda style front panels for those sunnier days. A top vent is provided to help air circulation. The Compactalite Pro Carbon 325 also comes with rear back pads; and if used together with optional back poles will help improve the seal against your caravan. The internal goalpost bracing frame and storm straps makes this awning one of the most sturdy in its class. The double rip stop fabric (technical name, REVTEX 5000drs) and Sun Pro material together with the Carbon-lite frame gives you the strength of a full awning but can be erected in a fraction of the time. So you can spend more time enjoying your holiday.

To compliment this awning a matching draught skirt, inner-tent and liteweave carpet are available.

CARBON FRAME TECHNOLOGY

The Carbon-Lite technology frame system has been designed specifically for this product, including adjustable interior bracing pole, and the new adjustable exterior leg poles for a complete fit in all situations. Lightweight, corrosion free, modular and extremely strong which gives years of service.

A new reduced price point for 2013, now further fantastic value for money ... look at the quality...

COMPACTALITE
PRO CARBON EX

AN EXCLUSIVE FEATURE PACKED CARBON FRAME CARAVAN AWNING WITH AN INTEGRAL ANNEXE...

The exciting and exclusive new **Compactalite Pro Carbon EX** is the awning of the future today!! Manufactured to Outdoor Revolutions exacting standards, and incorporating our exclusive registered design and carbon lite technology, this brand new concept awning crosses the strengths of a more traditional framed awning using carbon lite technology, with the benefits of a lightweight awning, easy to care for and erects in minutes. The Outdoor Revolution design team have again created an evolutionary product, backed with our exclusive factory quality that leads the way in awning design, and performance. 'feel the difference' revtex 5000 heavy duty polyester ensures long service and waterproofing unsurpassed in the market place. Sun pro UV our ultra violet protection is used on the roof for extra guard from the elements, even the new colourway is a cool and modern contemporary look to compliment your caravan. The exclusive design has many unseen features, the main living area is 325cm, and the annexe 150cm, totalling 475cm, the new annexe concept incorporated into the product allows a comfortable two person sleeping compartment (complete with removable inner tent), safe and secure with a funky window system for light in the day and covered by night, this can also be used for a storage compartment to keep the awning free of clutter in the day and has two panels at the front that roll to the centre to allow the awning to be fully open or the smaller traditional awning doors can be used either side in less favourable conditions. There is a large side door which is wide enough for wheelchairs or mobility scooters to pass through and also includes a mesh panel. This awning comes complete with back pads for quality fit and draught reduction and our now legendary zip in quality curtains for security and ease of use. The awning has more traditional loops at the base which are more user friendly and easily replaceable.

The **Compactalite Pro Carbon EX** represents the most up to date, functional and performance driven awning on the market for the discerning caravanner, coupled with our exclusive liteweave quality carpeting this is the perfect combination at amazing new value 2013 prices

Oxygen Air Frame technology...

See our new 2013 addition to our range, another first and exclusive awning from Outdoor Revolution, unique using air frame technology, ultra-lightweight and requiring only one valve and only 2 mins approx to inflate this product. Although not an entirely new concept, this awning is quiet simply breathtakingly easy to erect and simple to disassemble. The 325cm width and 250cm projection is ideal not just for weekends but gives exceptional space for those longer holidays too. The Oxygen has heavy duty 150d double ripstop material, one central stability panel to self position the awning whilst inflating, rear stability strap, centre carbon roof pole for extra support (side carbon roof poles optional extra), rear pad poles (optional extra) and external endurance straps for increased stability in challenging weather making it one of the most stable inflatable frameless caravan awnings on the market.

OXYGEN SPEED 1

The new era of lightweight awnings is here, look no further than the Oxygen Air Frame, the Oxygen Speed 1 is simplicity itself, no more pole assembly as this product comes with our revolutionary single air frame technology ...

The front panel has large tinted windows and zipped blinds to give the oxygen a more spacious yet private feel in the living area. It can also be zipped out and stored in the front storage pockets giving the awning an open canopy effect on those sunnier days. The extra wide doors are ideal for pushchairs and mobility scooters with full mesh panels to increase ventilation and reduce condensation without any unwanted guests coming in! Fitted with both 4mm and 6mm beading the oxygen is suitable for both caravans and small motorhomes. The contemporary design and exceptional features ensures your holiday be one to remember.

- Specification**

Carbon-Lite Frame Technology...

Outdoor Revolution have developed a carbon frame for our range of new wave awnings, two years in development, these frames represent the highest quality of carbon wrap technology for strong, lightweight, flexible and corrosion resistant awning frames. Tested rigorously for the UK market, the Carbon-lite frame is lightweight and easy to use; using various diameter poles this creates an excellent frame system. Modular in design so that all parts are replaceable for a long extended life span and outstanding performance. A true quality investment for the enhancement of your caravanning experience.

TECHLITE PRO L

The **Techlite Pro** range is a fantastic, easy to use and incredibly light awning for your caravan or motorhome. The clever part is that we have stitched both a 6mm and 4mm awning channel into the back of the awning, designed to slide into the front narrow gauge channel of wind-out canopies or into regular caravan /drive away awning channel. The large front windows and light coloured roof fabric make the awning especially pleasant to use. The large side doors are really useful and also make for example, wheelchair access very easy. The Fabric construction is 150D Ripstop Oxford PU with the REVTEX 5000 waterproofing.

To compensate for height differences in caravans, Outdoor Revolution have made the single front pole adjustable in height and also sewn the mud-walling on the inside to allow a better fit on hard-standing pitches. The Techlite Pro L & XL have the back pad weather seal (rear pad poles sold separately) and the fabric has the SUNPRO UV rating. Fully adjustable Pro L height: 235cm - 250 cm / for motorhome or caravan. Fully adjustable Pro XL height: 250cm - 270 cm / for motorhomes

Available in 2 colourways, Blue/Black/White or Burgundy/Black/White. Also available are matching draught skirts to complement your awning experience. (Sold seperately)

Width: 300cm. Depth: 240 cm

TECH-CANOPIE

The **Tech Canopy** is a new addition to the already very successful Outdoor Revolution Easi-Canopy range.

The Tech Canopy has all the features of a standard canopy but with the added benefit of side panels including windows to protect you from the elements without restricting your view. It is made from revolutionary REVTEX 5000DRS and comes complete with 3 endurance straps, making it one of the most substantial canopies in the market place. With the one pole quick erect system it also makes it one of the fastest and easiest to erect. Available in 3 different heights 180cm to 220cm, 220cm to 250cm and 240 to 270cm the tech canopy is suitable for most leisure vehicles, caravans or motorhomes. Fitted with twin beading it can either attach to your awning channel or a wind-out awning. At 3mtrs wide and 240cm deep it can be positioned where needed along the straight roof section of the vehicle. The very modern colour-way and style of the canopy will complement anyone's holiday and is sure to turn heads.

SPACELITE

The **Spacelite** name will be familiar to followers of Outdoor Revolution product as this was originally launched as a concept product in 2007. The main design feature of this awning is that the awning canvas can be rolled up into the bag which stays attached to the caravan rail. This naturally allows easier set up the next time the awning is erected and makes the Spacelite an ideal companion when touring. The front pole is steel with an adjustable leg to compensate for undulating ground. The floor plan of the awning is 325cm x 240cm. The large front windows and light coloured fabric make the awning especially pleasant to use. The large side doors are really useful and also make, for example, wheelchair access very easy.

Specifications

- Material, 68D 190T Polyester PU3000mm, FR
- Poles, 19mm Steel poles
- Pegs, steel pegs
- Height Range, 235cm to 250cm
- Colour, Blue/B&W & Burgundy B&W
- Net weight, 12kg (approx)

Optional Extras

- Roof Pole, POL225
- Inner Tent, ORI046
- Liteweave, LW320

Designed to fit all caravans with an awning rail height from 235cm to 250cm

EASI CANOPI

The **Easi Canopi** is a lightweight, simple to erect canopy to attach to either caravan awning channel or wind-out awnings. The front poles are sectional swaged steel so they can be disassembled to pack up small and lightweight. The front also has a ridge pole to offer greater stability. The canopy fabric is 190T Polyester for greater durability.

MOVELITE SQUARE CLASSIC

The **Movelite Square Classic** is a Free standing awning, ideal for smaller motorhomes (up to 240 cm high) van conversions, Eriba caravans, Trigano Rubis, Trigano Rapido, various 4x4's and MPV's.

For 2013 the highly sought after Movelite drive away awning takes on a new look. The traditional pre bent poles remain, (offering maximum headroom) as does the stability strap system fixing points. The look of the awning has been improved with the introduction of the large side doors to give the whole awning a gazebo feel during the daytime. Also added is the rear tension straps which are designed to take up any slack in the rear cowl when used with lower height vehicles. The clip in tray groundsheet allows a luxury awning carpet to be laid inside the awning to give a home from home feel. By purchasing the optional inner tent, the Movelite Square can also be used as a sleeping tent for the holiday guests. The Movelite square can be used as a drive away awning with our optional fixing kit, or through the use of the unique tying system which comes as part of the Movelite awning. The Movelite fits into a handy compact valise for easy storage.

Specification

- Fly, 68D 190T Polyester PU3000mm, FR
- Pole, 12.7mm Fibreglass
- Peg, Steel pegs
- Height Range, 180cm to 240cm
- Colour, Blue/Black/White
- Net weight, 12.5kg (approx)

Optional Extras

- Inner Tent, OR1156
- Liteweave, LW240
- Carpet, OR1157
- Matching Windbreak, WB831

OUR MOST SOUGHT AFTER COMPACT, FREE STANDING DRIVEAWAY AWNING ...

The **Movelite Square Classic** is a free standing awning, ideal for smaller motorhomes offering features that give a high degree of functionality and flexibility for a compact awning more often found in larger models.

DRIVEWAY GUIDANCE STRIP

Two highly visible fluorescent yellow reflective strips which can be pegged on the ground and designed to help guide your campervan precisely up against your driveaway awning.

Specification

- Reflective for night use
- Heavy duty PVC for durability
- Keeps your pitchsafe from others when off site
- Eyeletted for secure pegging down
- Includes pegs

MOVELITE MIDI CLASSIC

The **Movelite Midi Classic** is a Free standing awning, ideal for smaller motorhomes (up to 240 cm high) van conversions, Eriba caravans, Trigano Rubis, Trigano Rapido, various 4x4's and MPV's. The main advantage of this awning is the wider rear cowl allowing sliding doors (for example in VW transporters vans) to open within the rear cowl.

Like the Movelite Square the awning comes with the endurance strap system fixing points and the rear tension straps which are designed to take up any slack in the rear cowl when used with lower height vehicles. The clip in tray groundsheet allows a cosy awning carpet to be laid inside the awning to give a home from home feel.

By purchasing the optional inner tent, the Movelite Midi can also be used as a sleeping tent for the holiday guests.

The Movelite Midi can be used as a drive away awning with our optional fixing kit, or the rear cowl can be tied back until your return. The Movelite Midi fits into a handy compact valise for easy storage.

The **Movelite XL Classic** now synonymous with lightweight touring, the Movelite XL ticks all the boxes for a simple, value extension to your living space...

MOVELITE
XLF CLASSIC

A 2012 BESTSELLER, HUGE FAMILY SPACE AND SLEEPING AREA AND GREAT VALUE ...

Here is an incredibly versatile drive away awning for Coach-built motorhome with the inclusion of a large sleeping annexe and inner tent. The whole sleeping area can be closed off making the space useful for storage if the sleeping facility is not required. The Movelite XL family is a multi-purpose drive away awning product to fit all coach built motorhomes, up-to 9 feet high. The whole awning is very compact and very versatile. The Original Movelite XL family has an extremely easy to erect design. It has a zip up front door, the ground sheet is also included and it comes complete with pegs and guyline. The Movelite XL family can be used as a drive away awning with our optional fixing kit, or by the use of the unique strap system which comes as part of the awning. The Movelite XL family fits into a handy compact valise for easy storage.

MOVELITE MIDI
PRO CARBON

The **Movelite Pro Carbon Midi** is ideal for smaller motorhomes and van conversions, with a tunnel height range of 190cm to 240cm and a floor area of 3mtr by 2.4mtr this is the smallest in the Pro Carbon range.

The Pro Carbon Range is the ultimate in quality and innovation. Using Revtex 5000drs and our revolutionary Carbon-lite frame it makes the Pro Carbon range not just one of the strongest drive away awnings in the market place but also one of the lightest and quickest to erect, the Revtex 5000drs gives you the strength and versatility to be able to use the drive away awning on most types of holidays and short breaks. Whilst the Carbon-lite frame is not only quick to erect, it also gives you a lightweight frame without compromising on strength or durability. The front canopy gives you protection over the front door and either (or both) side panels can be removed if you wish to add an optional annexe for either an extra bedroom or simply storage. The front panel can be rolled back to give you an open plan space and the connection tunnel at the rear not only has skylights but it also gives you ample access to your van and can be used as an extra storage area. The internal bath tub groundsheet keeps out draughts and rain within the awning and the pole structure gives maximum living area ideal for those longer holidays

CAYMAN

The **Cayman** drive away awning may be at a budget price but still has the fantastic quality and features of the Outdoor Revolution Brand. The Cayman has a back tunnel height range of 180cm to 240cm, ideal for campervans and van conversions. Also incorporated is a sewn in groundsheet, which should be ideal for those damper days. The two side doors can be rolled back and the front panel rolled up to give the awning a gazebo like feel. The top vent gives extra ventilation on warmer days. The floor area of 3m x 2.8m makes the Momentum Cayman an ideal place for your table and chairs or simply as a little bit of extra storage.

NAVIGATOR KOMBI EX

AN EVEN LARGER EXTENDED VERSION OF OUR NOW ICONIC KOMBI ...

The **Navigator Kombi EX** and **Navigator Kombi** are both updated and new for 2013. If you wish to be out in the most striking and up to date leisure driveway awning for your camper then look no further... Oodles of space in the living area on both models, large bedrooms and a quality feel and real durability to complete the experience. Both models incorporate a four person bedroom inner with divider (supplied), this fits in the rear of the awning for additional guests or without for simply cavernous living and storage area. With a full sewn in groundsheet keeping warm air in and cold air out along with a complete seal against water and mud it will compliment any camper.

The new **Navigator Kombi EX** incorporates a large front canopy ideal for sitting under. Flat front with window and windows on the side doors for more light. The same side tunnel is deployed on both models, making it quick and easy to both driveway and drive up to with the new driveway strips included then it's as easy as can be. The now trusted design is simplicity to erect and very stable in difficult conditions.

The new model **Navigator Kombi**, now the legendary driveway has just got better with a huge interior. Sewn in groundsheet for bug and water free leisure time, simple to erect and driveway from. As well as a new striking look, a host of features including a four person detachable inner tent, side windows. Now includes the fantastic new driveway strips. Easy, strong and durable. See online for more details .

NEW HAMPSHIRE AWNING

The **New Hampshire** awning is our exclusive 'best seller' signature model; modern in design and packed with features, this awning was designed to enhance the look of any modern caravan and is the ideal choice when luxury touring. Outdoor Revolution have redefined the awning market to give the consumer the maximum features and durability at a value price. The New Hampshire is simply the best value quality and features awning on the uk market. This awning comes in highly durable market tested fabrics and when cared for will give years of excellent performance. Exclusive to Outdoor Revolution, the two front panels are interchangeable, so no matter where your caravan is pitched there is always a clear entrance/exit. Both side windows are fitted with mesh and with a vent in the centre of the frontwall, so you will find it hard to buy an awning with the option of as much ventilation. Superb news for caravanning in warmer and damp conditions. Easy to erect and incredibly stable, with the Carbon-lite option, very lightweight. A choice of neutral up to date colours either: Anthracite/Mercury or Blue Graphite/Sand, which will enhance most caravans. With storm straps and fix on pads included; in fact everything you need to begin enjoying your awning fully from the start with the minimum of work.

- 280gsm Polyester.
- Steel framework.
- Fits all models in New Wave awning range.
- Floor area approximately 185cm x 205 cm (largest available).

SIZE GUIDE

To work out the correct size awning you will require for your caravan, we have included an easy to read sizing chart. Place your caravan on level ground and simply measure the distance from A to B in centimetres (as per diagram). This gives you a total length which can be compared with the chart to give you the size awning you require. (eg total length from A - B = 1018 cm, therefore a 1025 awning is required)

Awning Size		775	800	825	850	875	900	925	950
Measurement A-B(cm)		765-790	790-815	815-840	840-865	865-890	890-915	915-940	940-965
Awning Size	975	1000	1025	1050	1075	1100	1125	1150	1175
Measurement A-B(cm)	965-990	990-1015	1015-1040	1040-1065	1065-1090	1090-1115	1115-1140	1140-1165	1165-1190

If unsure, please contact one of our specialist dealers for advice or email our technical enquiries department on: cuserv@blue-diamond-products.co.uk

FEATURE GUIDE - KEY TO ICONS

Sunpro - UV

Outdoor Revolution have Exclusively developed a weatherproof and ultra-violet coating which has been specially applied to our developed fabrics. This greatly enhances the performance, durability and lifetime of the fabric on our products. In real time it can extend the performance of the fabric up to 3 times the lifetime of untreated fabrics. Sunpro UV has been rigorously tested by our users and is now a seasoned addition to most of our range. No other manufacturer offers this kind of performance at this price. A first again for **Outdoor Revolution**. NOT AVAILABLE FROM OUR COMPETITION!! - Another reason to choose an **Outdoor Revolution** product.

Stability bar system - SBS

Developed exclusively for our **Outdoor Revolution** range of products, this bar system now legendary in its additional strength, performance enhancing properties and durability. No other lightweight awning manufacturer has this system. SBS massively increases the tension and the performance of the product in high winds, keeping the awning completely rigid and stable. Simple effective and strong. NOT AVAILABLE FROM OUR COMPETITION!! - Another reason to buy an **Outdoor Revolution** product.

Vortex vent system - VVS

Outdoor Revolution spend a lot of time developing new and efficient systems and air and condensation is a major consideration. At **Outdoor Revolution** we always place considerable importance on venting systems. Our products have more vents than our competitors and we have further developed the Vortex Vent System (VVS) to increase clean air throughout the product, making a more pleasant environment, reducing condensation and further reducing any lingering smells in the awning. NOT AVAILABLE FROM OUR COMPETITORS!!

Endurance storm strap system - ESS

Outdoor Revolution have further developed our revolutionary storm strap system. Designed at the brands conception, the new Endurance system further enhances the products performance in difficult weather conditions. It is designed to not only hold the fabric but also wraps around the pole to securely hold the whole product safely and efficiently to the ground in all conditions. In conjunction with other exclusive products the stability bar system makes for an unbeatably strong, capable and efficient system. Another reason to choose an **Outdoor Revolution** product!! NOT AVAILABLE FROM OUR COMPETITORS!!

Zinex - ZCF

New from **Outdoor Revolution** our upgraded premium pole system; Zinex is our newly developed zinc coated pole system, exclusive again from **Outdoor Revolution**, further enhancing the quality and durability for our products and keeping us firmly in the fore front of our industry in terms of quality, value, strength and durability. Another reason to choose **Outdoor Revolution** above everyone else. NOT AVAILABLE FROM OUR COMPETITION!!

Integra - RPS

Our new patent pending exclusive Integra RPS system has taken our lightweight products to new heights. The press are also raving about it, meaning this is something special!! Developed again as a first from the team at **Outdoor Revolution**, it simply has all the ease and lightweight use credentials, whilst giving you the adjustability and flexibility that a full awning requires. Simply thread the poles from the outside then tension the awning from the inside - Genius!! This is available for this year on our fantastic new Integra range, hence the name. Totally new, this is our most exciting development here at **Outdoor Revolution** for some years. The ultimate in ease and performance. Another reason to choose an **Outdoor Revolution** product!! NOT AVAILABLE FROM OUR COMPETITORS!!

Acrylix 300

New for 2013 is our newly developed Acrylix 300 fabric. Silky smooth with huge tensile strength, built in double ripstop for extreme performance, flexibility and endurance to the elements and the suns ultra-violet rays. We have spent many years perfecting this fabric with our manufacturer and factories and have tested it in every way to make sure it outperforms all other fabrics of its kind. Exclusive to **Outdoor Revolution**, we believe this will outperform all of our competitors equivalent fabrics in terms of durability and lifespan. Acrylix can only be found on our products. Another fantastic reason to choose **Outdoor Revolution**. DON'T ASK OUR COMPETITORS FOR THIS!!

Oxygen air frame

Another outstanding first from **Outdoor Revolution**; we have developed the first Oxygen air frame. Ultra light weight, using low pressure tubes for creating stable structures make it ultra fast to assemble and disassemble. This air frame is proven winner. Constructed in only the highest grade fabrics and materials, this system, tested rigorously for two seasons, is the future in lightweight quick to erect awnings or driveaways. Quality finish and superb value for money. See the video online and be amazed how simple this is!! They say the simple ideas are the best!! Another reason to choose **Outdoor Revolution**!!

Tintz

Outdoor Revolution have done it yet again by constantly moving the brand forward with innovation. Now tinted windows, the envy of our competitors and exclusive to ourselves for 2013. Lowering direct sunlight and creating a more calmer atmosphere inside the awning. It looks cool and high quality, giving that premium look and feel on our superb new range of awnings. DON'T ASK OUR COMPETITORS FOR THIS!!

Carbon-lite

Now in its third year on the market, the fantastic Carbon-lite goes from strength to strength. If it's a lightweight ultra strong frame system that you require then look no further. Huge performance comes from this carbon system; rot proof, lightweight and super strong. We have 10,000's of products out in the field now using our registered Carbon-lite and every one delighted at what it offers. DON'T ASK OUR COMPETITORS FOR THIS!!

Revtex 3000

A high performance polyester, developed by ourselves to give value for money whilst giving huge performance and durability. Revtex 3000 represents the hydrostatic head which is basically the water column it can hold without leaking. Dense, smooth and flexible; when cared for will give great service for many years.

Revtex 5000

An even higher performance polyester, developed by ourselves to give value for money whilst giving huge performance and durability. Revtex 5000 represents the hydrostatic head which is basically the water column it can hold without leaking. Dense, smooth and flexible; when cared for will give great service for many years.

Liteweave

At **Outdoor Revolution** our mission is to sell only the highest performing products on the market. If it's a luxury camping carpet that you require then look no further than our liteweave. Incredibly strong, rot proof, fully breathable, uv resistant, flame retardant, ecological as it's made from recycled plastics, jet washable and allowed on all sites. A premium and durable product in every sense of the word. DON'T ASK OUR COMPETITORS FOR THIS!! Don't be misled by alternative and cheaper copies, they are simply not the same. With over 20,000 pieces sold there is no mistake this the best performing carpet on the market.

Treadlite

At **Outdoor Revolution** our mission is to sell only the highest performing products on the market. If it's a premium camping carpet that you require then look no further than our treadlite, incredibly strong, rot proof, fully breathable, uv resistant, ecological as made from recycled plastics and allowed on all sites. DON'T BE MISLEAD BY COMPETITORS!!

Celebrating our 10th Outdoor Revolution consumer catalogue...

Dear Customer

Thank you for viewing the 2013 **Outdoor Revolution** catalogue, we hope you enjoy it; this year we are delighted to celebrate ten years of creating market leading, practical outdoor products for the leisure industry, with more new designs, features and models than any previous year.

Our original concept was formed over twelve years ago; our vision was to pioneer lightweight and easy erect awnings, two features that are essential to our customer. We also wanted to develop a brand synonymous with quality, function and innovation and introduce ground breaking products into the camping, caravan and motorhome industry. Our ambition has always been to set the benchmark for the industry to satisfy and often exceed the consumers need and expectation for premium quality, modern, lightweight and simple to use products; we are frequently copied **but never equalled!**

In 2013 we have continued to push the boundaries and have introduced new technologies included in the Oxygen Air Frame Awning and the new ground breaking Integra. We have also introduced the exclusive range of Caymans for your Campervan and Motorhome, with improved performance, specification and durability; we have listened to feedback from you, our customer and have introduced upgrades for 2013 as well as a whole host of new technical developments, giving you the best choice of performance products for this season.

Visit www.outdoor-revolution.com, which brings our brand to you! Enabling you to locate your nearest stockist; you can also learn more about the features and benefits of our 2013 ranges, our latest news, videos and monthly competitions. In addition you can participate in our new consumer forum and blog, we value your opinion! You can also like our Facebook page and follow us on Twitter.

We are committed to continue to give you more; to demonstrate our passion for our industry, customer service and desire to remain true to our mission as leaders of our market.

Thank you once again for your support and we look forward to the next ten years!
